Sika acquires Axim from Italcementi Group

Sika AG acquires the global concrete admixture and cement grinding aid business of the Italcementi Group, which are on the market under the brand Axim. Axim generated sales of around CHF 75 million (EUR 61 million) in 2010.

Bergamo and Baar - Sika is to acquire the global concrete admixture and cement grinding aid business of Italcementi Group (directly or indirectly controlled by Italcementi or Ciments Français), which are on the market under the brand Axim. Axim has approximately 150 employees and through six legal entities operates several production units and sales organizations in Italy, France, USA, Canada, Morocco and Spain. In 2010 Axim generated sales of around CHF 75 million (EUR 61 million).

Axim has a history of over 30 years of experience in the market and offers a broad and innovative range of concrete admixtures, cement grinding aids and specialized chemicals that enhance the performance of cement and concrete, as well as improve cement production efficiency.

“The agreement”, stated Giovanni Ferrario, COO Italcementi Group, “will allow the Group to capitalize the value of this business. Moreover it will further extend the relationship between Italcementi and Sika enhancing the reputation of both companies as innovator in the field of concrete and cement.”

This acquisition allows Sika to significantly strengthen its market position in the relevant countries. As Ernst Baertschi CEO from Sika puts it: “This is a major step for Sika in the process of expanding market shares in the admixture business worldwide”.

Sika AG Corporate Profile

Sika AG, located in Baar, Switzerland, is a globally active specialty chemicals company. Sika supplies the building and construction industry as well as manufacturing industries (automotive, bus, truck, rail, alternative energies, building components). Sika is a leader in processing materials used in sealing, bonding, damping, reinforcing and protecting load-bearing structures. Sika's product lines feature high-quality concrete admixtures, specialty mortars, sealants and adhesives, damping and reinforcing materials, structural strengthening systems, industrial flooring as well as roofing and waterproofing systems. Worldwide local presence in 76 countries and some 14 000 employees link customers directly to Sika and guarantee the success of all partners. Sika generated annual sales of CHF 4.4 billion in 2010.
